

Meeting Notice

April 26, 2008

Fellow Patriots,

To continue our theme of automotive history in Indiana, we are proceeding with plans for our next meeting on April 26, 2008 at the offices of our SR member Kent Baker in Indianapolis. This will be a rare opportunity for racing fans and fans of automotive history in Indiana. Kent Baker is a car owner who has raced at the Indianapolis 500 since 1988 finishing as high as 8th. At his offices he has display cases and memorabilia dating to the beginning of the Speedway race course in 1909. At this location including the attached garage area we will visit, he has some of his race cars, motorcycles, his travel bus and other items of interest. We will be visiting his personal museum and showroom, and he has offered to share some of his stories and experiences with us.

The attached photo is of Kent Baker on one of his race cars in the room where we will meet. At the other end of the room we will gather around tables for our business meeting. We can then have a buffet luncheon in this room, or we can go to a restaurant nearby for lunch and each member order from the menu. If you have a preference as to which we do, please send me a short email with your vote.

At any rate, please mark your calendars for this special occasion. We hope to see you there.

Robert D. Rati, President
Sons of the Revolution in the State of Indiana
